

## PRODUCT DESCRIPTION

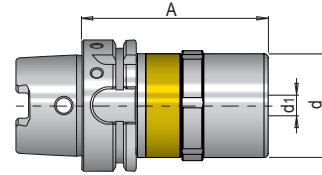

- » Very high clamping forces
- » Vibration damping design
- » Ideal for high cutting depths and feed rates
- » Maintenance-free technology
- » Optimal smooth running due to optimised concentricity
- » With Balluf chip hole

## APPLICATION

- » Optimal for heavy duty cutting
- » For clamping of tools with cylinder shank
- » Use in combination with HWZ 9060 HWZ or HWZ 9062 allows for flexible use

## INCLUDED IN THE DELIVERY

- » Power chuck with user manual
