

M1

### PRODUCT DESCRIPTION

Versatile release agent for thermoplastics and thermosetting processing with a focus on injection moulds and blow moulds. The high-quality formulation offers the best release and sliding properties, high temperature resistance and allows safe demoulding of plastic parts.

### ADVANTAGES

- » Usable up to 180°C
- » Compatible with compounds sensitive to stress cracking
- » Excellent release and sliding properties
- » Non-spreading
- » Silicone-free
- » M1 registered

### APPLICATION

Shake can before use. Spray thinly and evenly from a distance of approx. 20 cm. A thick application should be avoided.

Containers	Content	 Pcs. / PU	No.	EUR
Aerosol can	400ml	1	VRT 180/ 1/400	< >
Aerosol can	400ml	12	VRT 180/12/400	< >
